About me

I am a web developer, holding a technical degree in systems development from SENAI, with a focus on crafting dynamic web applications using Angular, React, and NextJS. Eager to expand my expertise, I dedicated time to mastering NodeJS and Express. This deliberate pursuit reflects my commitment to elevating the quality and depth of my professional skills.

Professional Experience

2022 - Current

Senai Cimatec

Intern ~ Dev I

Worked as an intern in the Senai team, contributing to the documentation and development of APIs using Golang. Collaborated in an Agile SCRUM environment to ensure organization and code quality. As part of a partnership with HPE, developed backend endpoints and supported the implementation of best practices to maintain high standards in the project.

Tags: Golang, SCRUM, PostgreSQL.

Participated in a project in partnership with Hemoce, focusing primarily on frontend development with NextJS while also addressing backend bug fixes using Golang. Contributed to database modeling with PostgreSQL, leveraging Docker for containerization and AWS for deployment, ensuring robust and scalable solutions throughout the project.

Tags: Golang, SCRUM, PostgreSQL, Docker, AWS EC2, Typescript, NextJS.

Contributed to the development team in a project in partnership with HP, working with cutting-edge technologies including Docker, Golang, NextJS, NestJS, and PostgreSQL. Addressed legacy code written in JavaScript and React, alongside modern implementations in TypeScript. Actively participated in bug fixing and developing scalable components of the system, ensuring high performance and maintainability.

Tags: Golang, SCRUM, PostgreSQL, Docker, AWS EC2, Typescript, NextJS, NestJS, Javascript.

2021 - 2022

Freelances

Freelance Developer

Worked as a freelance developer, delivering full-stack solutions using a diverse tech stack including TypeScript, NestJS, Restify, Express, NextJS, Angular 16, Golang, and Docker. Designed and implemented robust APIs, integrated PostgreSQL and MongoDB for data storage, and utilized SocketIO for real-time communication. Contributed to building scalable and maintainable systems, tailoring solutions to meet client-specific needs.

Academic Experience

2021 - 2023

Senai Cimatec - Technic

System Development

2023 - 2025

Catholic University of Salvador - Technologist

Analysis and System Development
